Beauty of Timber.

WoodEx® Two Part Clip-On Battens

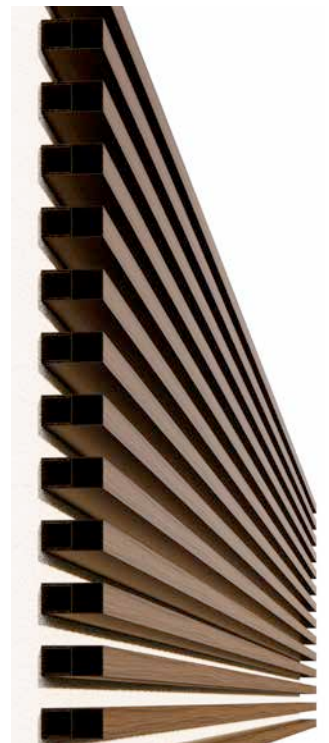

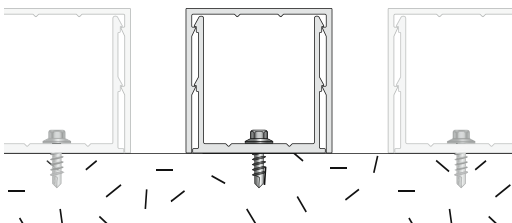

Pictured: Residential project, Essendon VIC
featuring WoodEx® Two Part Clip-On Battens in American Oak

WoodEx® Two Part Clip-On Battens transform an ordinary facade into an architectural masterpiece by infusing spaces with rich texture and captivating allure. Strengthening privacy while still allowing the light to gently filter through, this profile strikes a delicate balance of shelter and openness and forges a beautiful connection to the natural world beyond.

This profile captures the timeless elegance and classic charm of timber battens, merging it with modern advantages such as concealed fixings and greater spans. WoodEx® eliminates the risks and upkeep required of traditional timber, allowing you to embrace nature's beauty without compromise.

Suitable for: Internal and external applications.

Applications include: Feature cladding or ceilings, screening, gates, fences, balustrades.

WoodEx® Lightweight Clip-On Battens

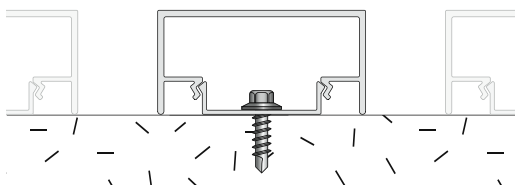

Pictured: Swimming pool, Walmer Residences, Abbotsford VIC
Featuring WoodEx® Lightweight Clip-On Battens in Spotted Gum

WoodEx® Lightweight Clip-On Battens are the perfect choice in architectural projects where the weight of the material plays a vital role in its placement. Weighing less than half a kilogram per linear metre, this featherlight profile captivates the senses with graceful contours and sophisticated lines. These battens don't just enhance the beauty of a space; they invite a myriad of exciting possibilities to explore.

With a clever concealed fixing system to ensure an effortless installation process, WoodEx® battens are a true testament to thoughtful design, harmonising form and function in a way that inspires creativity and embraces innovation.

Suitable for: Internal and external applications.

Applications include: Feature cladding or ceilings, garage doors.

WoodEx® V-Join Cladding

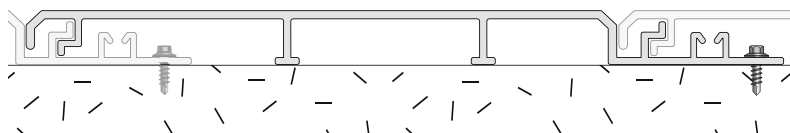

Pictured: Courtyard, Pavilions Blackburn Lake, Nunawading VIC
Featuring WoodEx® V-Join Cladding in Blackbutt Light

WoodEx® V-Join Cladding blends classic style with the lasting elegance of traditional shiplap timber panelling, providing a stunning versatility that will enhance both contemporary settings and timeless heritage spaces.

Designed to replace timber cladding without compromising on aesthetics, WoodEx® Cladding provides reduced thermal movement, significantly reduced maintenance, and features our ingenious concealed fixing method for installation to bring your architectural vision to life without any trade-offs.

Suitable for: Internal and external applications.

Applications include: Feature cladding or ceilings, garage doors.

WoodEx® Castellated Cladding

Pictured: Residential project, Springvale VIC
Featuring WoodEx® Castellated Cladding in Blackbutt Light

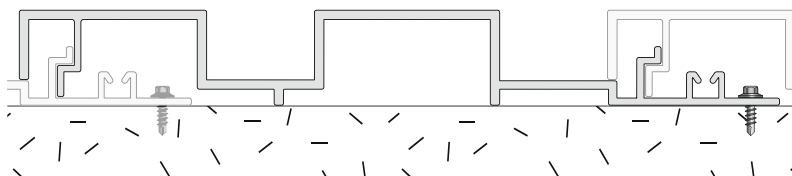

WoodEx® Castellated Cladding features a captivating design of alternating raised and flat segments, creating the illusion of singular pieces of timber and infusing architectural spaces with a sophisticated, high-end allure.

This profile honours the intricate dance between light and dark; with mesmerizing shadow lines that enhance the rich texture and dimension of the facade, it has swiftly become a favourite choice for contemporary architectural settings.

WoodEx® Castellated Cladding comes with a smart concealed fixing method for all boards and trims. It also promises reduced thermal movement compared to timber cladding.

Suitable for: Internal and external applications.

Applications include: Feature cladding or ceilings, garage doors.

WoodEx® Ceiling Lining

Pictured: Starbucks Café, Warrawong NSW
Featuring WoodEx® Ceiling Lining in American Oak

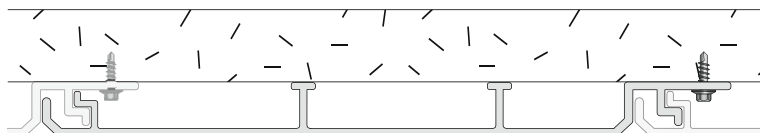

WoodEx® Ceiling Lining provides a wonderfully lightweight and cost-efficient solution that combines the aesthetic charm of timber with the excellent durability and many advantages that come with aluminium.

Emulating the warmth and elegance of timber ceiling panels, this profile introduces a cosy, inviting ambience to your space with the flexibility to adapt to any decor. With an innovative concealed fixing system ceilings are clean, smooth and truly beautiful to look at.

Designed for installations beyond the reach of human touch and shielded from direct weather exposure, WoodEx® Ceiling Lining ensures not only excellent longevity but also a blissful zero maintenance experience.

Suitable for: Internal ceiling applications.

Applications include: Feature ceilings.
